BE THE FIRST
IN YOUR AREA...

NOW AVAILABLE
with LCD SCREEN!

Alco-Buddy is proud to bring to you the very best in credit card and bill operated breathalyzer machines. One of the easiest ways to make cash.

A perfect machine for any establishment that serves alcohol! Placed in high traffic locations, these machines are a sure money maker!

These are easy to place. Bar, Club and Restaurant owners welcome the extra revenue in these uncertain times.

Alco Buddy is an alcohol breathalyzer vending machine, to be installed in establishments that serve alcohol.

Drunk driving is a real and present danger that affects everyone.

All too often people leave establishments after drinking "just a few drinks" and falsely believe that they are safe to drive when they are, in fact, legally intoxicated.

Alco Buddy provides patrons with access to an ALCOHOL BREATHALYZER TEST, allowing them to gauge their own B.A.C. (blood alcohol content) before they ever get behind the wheel.

Why your establishment should have a alcohol breathalyzer...

It is completely FREE to your establishment.

Alco Buddy PAYS out a % of the monthly revenue.

It is an intelligent, simple and discreet way for patrons to check their B.A.C. (blood alcohol content) before venturing out on the road.

It sets the tone and shows that the establishment cares about its customers.

It comes with a professional installation and maintenance.

It takes very little room (wall mounted) and uses minimal power.

Your establishment has no legal liability (disclaimer on front of machine).

Advertising Opportunities

Give your business maximum exposure to a targeted audience by advertising with Alco Buddy! Each machine has three business card-sized advertising spots. We can use an existing ad that you provide to us or can design your ad. Your ad will then be placed at the establishment of your choice based on availability. Alco Buddy will not place more than one ad of the same type of service provider on a machine.

Machine Specifications

Dimensions:

- Height: 15 ft.
- Width: 1 ft.
- Depth: 6 inches
- Weight: 24 lbs
